Pull-Frill Organdy Ribbon is a do-it-yourself flower, which can be easily produced by just pulling the inserted cord. Beautiful layers are then created by the ruffled effect.

PULL FRILL RIBBON è un nastro che quando ne tiri la cordicella si trasforma in delizioso ornamento, ad esempio in un fiore. Con sovrapposizioni ripetute è possibile creare composizioni voluminose e dal gusto raffinato in cui a risaltare è soprattutto la delicata struttura dell'organdi.

Le ruban organdi à froncer est doté d'une ficelle qu'il suffit de tirer pour former une superbe rosace.

Les fronces sont souples et délicates, révélant tout le raffinement de la texture de l'organdi.
